Objective

Get a PHP Junior job. After 4 year, grow up in Middle Developer.

Technical Skills

- PHP, HTML, CSS;
- I work with the MySQL database;
- I have experience in configuring the working environment of Linux, Apache;
- use Git in development;
- in work I use IDE PhpStorm;
- model MVC assorted on an example Opencart ;
- familiarized with Symfony, Laravel;

Work experience

08.2014 - (the last 3 years)

Work for myself. I organized a welding and metalwork shop in the garage, I carry out private orders on its basis.

I work as a driver in a taxi service.

07.04.2006 - 31.07.2014 (8 years)

LLC „MTD“. Worked on production. The duties involved the manufacture and installation of cabinet furniture. When the shop was reorganized into manufacturing of metal furniture, I mastered the profession of a welder (I have the 3rd rank), was the chief of the shop. He resigned because of the relocation of the enterprise to another district of the city.

13.04.2007-26.04.2006

Served in the army. Military service. Issued self-contained power installations.
